

Liquid Purifier

Thin-Film UV Design

Technology for the Purification of Low UVT Liquids and Fluids

Features:

- Thin Film UV Sterilizer for Liquids with min. 25% UVT
- 3 GPM Rated Flow
- 316L SS Reaction Chamber Construction
- 1" Sanitary Fittings In/Out

Features:

- Custom Fluid Treatment System at 35 GPM Rated Flow
- On Board Pump
- 0.2 Micron Sediment Filtration
- UV Disinfection
- All Electronics inside NEMA IV Control Panel
- Mounted on Stainless Steel Skid
- 1-1/2" In/Out

Features:

- Thin Film UV Sterilizer at 5 GPM Rated Flow
- On Board Pump
- UV Disinfection
- 3-Way Valve on Out Port for Recirc / Product
- Mounted on Transportable Rack
- 3/4" In/Out
